SUMMARY

Passionate BCA student and frontend developer specializing in building interactive web applications. Skilled in HTML, CSS, JavaScript, and beginner-level Python. Developed multiple projects showcasing strong problem-solving abilities and attention to detail. Eager to contribute technical skills and learn new technologies in a professional environment.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript

Programming Languages: Python, C, JavaScript

Tools & Platforms: Git, VS Code, Postman, OpenWeatherMap API

PROJECTS

Music Player Web Application   2025
Frontend Development Project   *HTML, CSS, JavaScript*
- Developed a responsive music player with play/pause, track skipping, and volume control
- Implemented smooth animations and intuitive UI using vanilla JavaScript
- Live Demo — GitHub

Weather Application   2025
API Integration Project   *JavaScript, OpenWeatherMap API*
- Built a weather app fetching real-time data from OpenWeatherMap API
- Created clean interface with dynamic content updates based on user input
- Live Demo — GitHub

EDUCATION

Maulana Abul Kalam Azad University of Technology   West Bengal
Bachelor of Computer Applications (BCA)   *2023 – 2027 (Expected)*

Kishore Bharati   West Bengal
Higher Secondary Education (12th Grade)   *2021 – 2023*

CERTIFICATIONS

- Python for Beginners - Letsupgrade(2024)
- Web Development Fundamentals - Letsupgrade(2025)
